# **MARIMEIA ARMY AC196 ARMY LIST**

This section contains all the datasheets that you will need in order to fight battles with your Marimeia Army miniatures. Each datasheet includes the characteristics profiles of the unit it describes, as well as any wargear and abilities it might have. Some rules are common to several Marimeia Army units - these are described below and referenced on the datasheets.

### **ABILITIES**

The following abilities are common to several Marimeia Army units:

#### **Mobile Suit**

This model can Fall Back in the movement phase and still shoot and/or charge in the same turn. When this model moves, it may move over enemy **Infantry** models, although it must end its move more than 1" from any enemy units. This model only gains a bonus to its save for being in cover if at least half of the model is obscured from the firer. This model gains **Titanic Presence**.

#### **Titanic Presence**

After attacking in melee with a chosen weapon, this model may then make 1 additional attack with each other melee weapon it is equipped with. This model counts as 10 models when determining control of an objective marker. If every model in your army shares a <Faction> keyword,

then all models with this rule gain **Objective Secured** (see the Warhammer 40,000 Core Book).

## **Core Explodes**

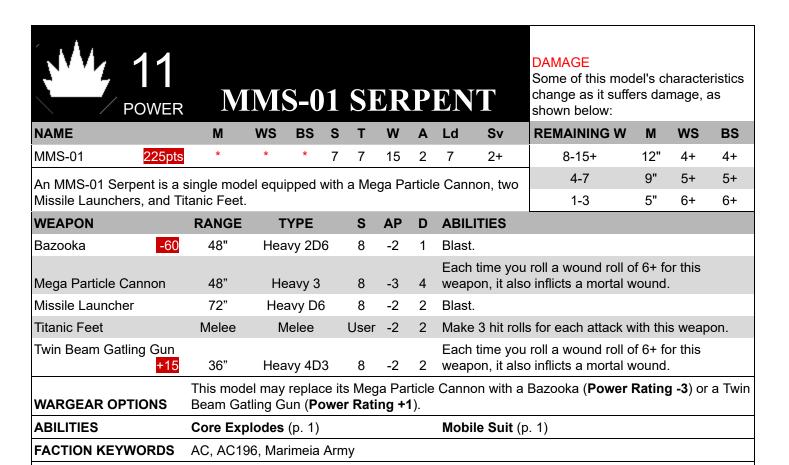

If this model is reduced to 0 wounds, roll a D6 before removing it from the battlefield. On a 6 it explodes, and each unit within 2D6" receives D6 mortal wounds.

## Weapon Types

All weapons from 40k and from the Gundam Indices are considered **Kinetic** unless otherwise specified as follows: Weapons with *dark lance, flamer, fusion, gauss, grav, melta, phase, star, tesla,* or *vortex* as part of the name gain **Energy** 

Weapons with *lance*, *las-*, *laser*, *light*, or *prism* as part of the name gain **LASER**, **Energy** 

Weapons with *beam, fusion, ion, particle,* or *plasma* as part of the name gain **Beam, Energy** 

Titanic, Vehicle, Mobile Suit, Space, Ground
