EARTH FEDERATION FORCES - THE ORIGIN ARMY LIST

This section contains all the datasheets that you will need in order to fight battles with your Earth Federation Forces - The Origin (EFF-TO) miniatures. Each datasheet includes the characteristics profiles of the unit it describes, as well as any wargear and abilities it might have. Some rules are common to several EFF-TO units - these are described below and referenced on the datasheets.

ABILITIES

The following abilities are common to several EFF-TO units:

Escape Vehicle - < Unit Type>

At any time, including if the model is reduced to 0 Wounds (as long as it does not explode), then the pilot may eject in a <Unit Type> and continue fighting. The pilot now uses the basic <Unit Type> unit, placing it within 1" of where the prior model was. The prior model is removed from the game. The new <Unit Type> model is considered part of the original unit.

Mobile Suit

This model can Fall Back in the movement phase and still shoot and/or charge in the same turn. When this model moves, it may move over enemy **Infantry** models, although it must end its move more than 1" from any enemy units. This model only gains a bonus to its save for being in cover if at least half of the model is obscured from the firer. This model gains **Titanic Presence.**

Core Explodes

If this model is reduced to 0 wounds, roll a D6 before removing it from the battlefield. On a 6 it explodes, and each unit within 2D6" receives D6 mortal wounds.

Titanic Presence

After attacking in melee with a chosen weapon, this model may then make 1 additional attack with each other melee weapon it is equipped with. This model counts as 10 models when determining control of an objective marker. If every model in your army shares a <Faction> keyword,

then all models with this rule gain **Objective Secured** (see the Warhammer 40,000 Core Book).

Vehicle Squadron

The first time this unit is set up, all models in this unit must be placed within 6" of each other. From that point onwards, each operates independently and is treated as a separate unit for all rules purposes.

Newtype

This model is considered a psyker. This model can attempt to manifest a single psychic power in each friendly psychic phase, and can attempt to deny a single psychic power in each enemy psychic phase. It may use any power from the Newtype Discipline when manifesting. Note - Newtypes do not know Smite, and do not damage other models from Perils of the Warp.

NEWTYPE DISCIPLINE

IT'S A GUNDAM!!

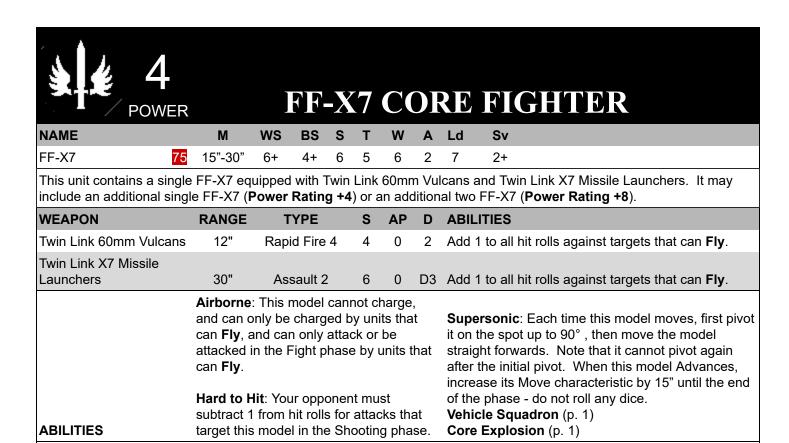

IT'S A GUNDAM!! has a warp charge value of 6. If manifested, select a unit within 30" that is visible to the Newtype. Until the start of your next psychic phase, that unit must subtract 1 from their hit rolls and from their Leadership characteristic.

Plot Armor

Plot Armor has a warp charge value of 6. If manifested, until the start of your next psychic phase, each time a model from the Newtype's unit suffers a wound or mortal wound, roll a D6; on a 5 or 6, the model does not lose a wound.

Combat Hypnosis

Combat Hypnosis has a warp charge value of 6. If manifested, the Newtype's unit can Advance and shoot this turn without suffering any penalties to their Ballistic Skill for moving and shooting Heavy weapons, or Advancing and shooting Assault weapons. In addition, the Newtype's unit can Charge this turn.
