Background Story

EFSF Mobile Suits are part of a large military organization that focuses on the defense of their home planet from the rebellious Republic of Zeon. Mobile Suits are metal monstrosities that crush other "titanic" war machines beneath their Luna Titanium clad tread, and terrorize enemy armies with their shocking speed.

Often operating in teams, there are few military forces that can withstand a sustained assault from a dedicated Mobile Suit team. They have been known to bring along assorted ground forces, though.

While the standard machines are dangerous enough, there have been tales of maddening psychic pressure emanating from custom tuned Ace machines.

Whole battles have been known to turn upon the arrival of a single Mobile Suit. When hundreds of tons of Mobile Suits slam into the ground from high orbit insertion, it's already too late to run.
